

DSD Deposit Scheme: clearing, disposal and recovery

Count on us.

Der Grüne Punkt –
Duales System Deutschland GmbH

Flexible responsiveness trumps maximised complexity.

We're a reassuringly good choice for you to make when it comes to intelligent solutions for meeting your obligations to take back non-returnable beverage packages subject to a mandatory deposit. Our priority is to ease your workload. With our long years of experience as a can-do, dependable manager of large material and money flows in the packaging disposal sector, we offer you an optimised deposit scheme as well – precisely costed, for every take-back location nationwide.

Der Grüne Punkt – Duales System Deutschland GmbH (DSD GmbH) has developed full-service schemes for taking back non-returnable beverage packages with deposit clearing – an attractive option for producers and retailers alike. Our performance capabilities cover meticulous collections and monitoring of take-back quantities and transparent deposit accounting. We offer you optimum quality at competitive prices.

OUR STRENGTH: CUSTOMISED AFFORDABILITY

Tailored responsively to your own products and to local conditions, we develop top-class solutions for your own individual take-back obligations. Our quotations can be customised to suit all types of non-returnable packaging. No matter whether you want an automated or a manual take-back operation – we operate with meticulous precision and maximised economy.

DSD's deposit clearing scheme.

CONSULTANCY We give you comprehensive advice on the complex subject of deposits. Thanks to lean structures and synergetic effects in our portfolio of corporate capabilities, you benefit from low system costs. We offer you superlatively harmonised solutions for logistics, counting, recovery, clearing and documentation, geared to the requirements of producers and retailers alike.

LOGISTICS AND COUNTING Our logistics service at the central warehouses or at the POS organises collection and transport of the deposit-linked packs to the counting centre. We possess the requisite expertise and the instruments for rendering the entire process transparent and trackable throughout. Our counting partners operate dependably and in fully verifiable compliance with the DPG's stipulations. We do, of course, continually monitor the quality of our partners. You can be sure your deposit-linked packs are in good hands.

RECOVERY We organise homogeneous sorting of your non-returnable packs into the following material fractions: clear PET, coloured PET, tin-plate and aluminium, ensuring an optimum recovery process.

CLEARING We manage your deposit accounting in line with the DPG's requirements, and handle on your behalf all the inquiries and contacts with the claimants for deposit reimbursement. We provide you with regular reports on deposit monies paid out, and offer an on-call service through a coded internet portal. For retailers, in addition, we look after the claimant service for their own and third-party branded articles. We turn the raw data records into audited, properly tallied deposit claims in strict compliance with the DPG's stipulations.

DOCUMENTATION We handle all the data management involved for you, covering the complex path travelled by the deposit-linked packs. We will be pleased to provide you on request with customised analyses.

Responsively customised competence. Give us a call!
