

DSD Disposal of Transport Packages:
take-back and disposal

Simply carried away.

Der Grüne Punkt –
Duales System Deutschland GmbH

Valuable. Like their contents.

Solutions for special disposal situations are much in demand, ever since producers and retailers have been obligated to take back transport packages after use. Pallets and canisters, cartons and shrink-films, moulded foamed-plastic packaging components, all have to be re-used or recovered.

Multifarious places of origination and disparate requirements for special collection containers are particular challenges in this context. Drawing upon all its experience in managing material flows, Der Grüne Punkt – Duales System Deutschland GmbH (DSD GmbH) has developed a complete spectrum of services for these tasks, tailored to a particular customer or sector – at competitive prices and with flexibly responsive service support. A can-do capability package that takes your wishes fully on board - always, of course, in full compliance with statutory stipulations and the actual conditions on the spot.

DSD handles disposal of your transport packages.

CONSULTANCY

We offer fit-for-purpose solutions geared to effective disposal of transport packages. With responsively customised concepts and all the relevant services from a single source – logistics, recovery, accounting and documentation.

LOGISTICS

Solutions with rapid response times are much in demand. We deliver the right systems: container provision and customised disposal concepts for all places of origination. Anywhere – nationwide. For scheduled or on-call installation and collections. Adjustable at will to suit your needs.

TAKE-BACK

We dispose of transport packages in compliance with the German Packaging Ordinance. As a stand-alone solution at your location, on a nationwide basis, or within the framework of a sectorally specific solution.

RECOVERY

We provide complete material recycling for obtaining high-quality, marketable secondary raw materials. For this purpose, we operate worldwide with can-do recovery specialists. With cost-efficiently assembled transportation units, responsively geared to minimising your costs.

PRICES

Expect market-leader quality at prices you can afford. Without any concealed costs. The calculations are always based on the nature and weight of the packaging material you use. You pay only for packages that you actually put into circulation.

DOCUMENTATION

We handle the entire data management for you, from the “first dealers” all the way through to ultimate recovery. With regular monitoring of all procedures and data for plausibility. Plus full-coverage, transparent documentation of the mass flows involved.

Responsively customised competence. Give us a call!
